

FIG. 1 is a perspective view of a zigzag-shaped, multi-layered structure 20. The structure 20 is formed by a plurality of layers 22, 24, 26, and 28. The layers 22 and 24 are the outermost layers, and the layers 26 and 28 are the innermost layers. The layers 22 and 24 are made of a material having a high modulus of elasticity, and the layers 26 and 28 are made of a material having a low modulus of elasticity. The structure 20 is shown in a zigzag shape, with the layers 22 and 24 forming the outer edges and the layers 26 and 28 forming the inner edges. The structure 20 is shown in a perspective view, with the layers 22 and 24 being shown in a cross-section and the layers 26 and 28 being shown in a perspective view.
